Index to electronics—Volume XIV

January to December issues, inclusive, 1941

McGraw-Hill Publishing Company

330 West 42nd St., New York City

Aeronautics:
Facsimile speeds air reconnaissance.. May *30

Amplifiers:
Determining feedback characteristics graphically .....Oct. *87
Power amplifier plate tank circuits. A. B. Newhouse.....Nov. *32
Sensitive d-c amplifier with a-c operation. S. E. Miller.....Nov. *27
Sweep circuit and deflection amplifier. W. A. Geohegan.....Dec. *38
Television preamplifier. Muniz & Tait Apr. *39
Variable equalizer amplifier. Henry Rahmel .....July *26
Audio and sound system reference data June 54

Antennas:
Antenna system for frequency modulation reception. J. G. Aceves.. Sept. *42
Radio frequency matching sections. A. C. Omberg (Ref. Sheet).....Jan. *43
Ultrahigh frequency antenna coupling unit. R. D. Rietzke.....Nov. *74

Broadcasting:
Broadcasting "on location." D. F. Langham .....Feb. *40
CBS short-wave station goes to Latin America. A. B. Chamberlain..July *30
Fire protection in broadcasting. Harry Grant .....Jan. *38
Flexible studio control console. Harold Klimpel .....Feb. *44
Integrated remote amplifier system. A. J. Ebel.....Aug. *46
KCMO's 5-kw. transmitter. L. C. Sigmon .....Aug. *18
Nielson radio index records the public taste .....Mar. *29
Push-button switching for the small broadcaster. H. H. Wood.....May *32
Standard broadcasting reference data June 40

Cathode Rays:
Characteristics of fluorescent materials. L. H. Stauffer.....Oct. *32
Synchronized voltages for bioelectric research. Harold Goldberg....Aug. *30
Tracing tube characteristics on a cathode ray oscilloscope. Millman & Moskowitz .....Mar. *36
Versatile oscilloscope. W. E. Gilson Dec. *22

Defense Problems in Industry:
Defense contracts for small plants. E. O. Eisenberg.....Oct. 31
Mass production for precision equipment. H. J. Emerson.....Nov. *42

Electric Shocks:
Muscular paralysis caused by electric currents. Dalziel & Lagen....Mar. *22

Electron Tubes:
Dielectric igniters for mercury pool cathode tubes. Hans Klemperer.. Nov. *38
Experimental duo-pentode. M. K. Goldstein .....May *34
Geiger-Muller counter tube. Paul Weisz .....Dec. *19
Receiver tube operation in aircraft. Lagasse & Dean.....Nov. *56
Technique for tube data. C. C. Street Oct. *50

Electron Tubes—Applications:
Automatic voltage regulator. E. J. Casselman .....Oct. *54
Control circuits for industry. Gilbert Smiley .....Jan. *29
Cooling control of ore in kiln by photoelectric relay. Philip Ewald Nov. *55
Design chart for r-f heat treatment generators. Eugene Mittelmann (Ref. Sheets) .....Sept. *51
Electron tubes in petroleum research. Penther & Pompeo, pt. 1, Apr. *20; pt. 2 .....May *43
Electronic pyrometer control. F. B. MacLaren .....Nov. *50
Equipment failure alarm for communication networks. Cook & Petersen .....Oct. *44
Gas line protected with photoelectric dew-point recorder. J. A. Setter.. Nov. *72
Hot-cathode gas-discharge tubes. Bahls & Thomas.....Sept. *33
Industrial electronics—a progress report. R. A. Powers, pt. 1, July *17; pt. 2 .....Aug. *33
Industrial and power application reference data .....June 58
Integrator for counting circuit contacts. G. W. Kenrick.....Mar. *33
Magnetic relays for sensitive control. A. H. Lamb.....Feb. *31
Packaging machinery with electronic control. E. F. Cornock.....Mar. *34
Phototube absorption analyzer. V. F. Hanson .....Jan. 40

Facsimile:
Design chart. R. R. Haugh.....Apr. 45
Speeds air reconnaissance.....May *30

Filters:
Insertion loss in filters. Kritz & Gruenberg (Ref. Sheet).....Mar. *45
Radio frequency matching sections. A. C. Omberg (Ref. Sheet).....Jan. *43

Frequency Modulation:
Audio and video on a single carrier. H. E. Kallmann.....May *39
Emergency radio communication for an electric power system. G. G. Langdon .....Mar. *40
Frequency deviation measurement of frequency modulation transmitters. Holland & Giacoletto.....Oct. *51
Frequency modulation reference data June 46
Impulse noise in frequency modulation reception. V. D. Landon...Feb. *26
Low-power transmitter for demonstrating frequency modulation receivers. Marvin Hobbs.....Jan. *20
Measurements in frequency modulation transmitters. H. P. Thomas, pt. 1, May *23; pt. 2.....July *36
Noise and interference. Stanford Goldman .....Aug. *37
Signal generator for frequency modulation. Barber, Franks & Richardson .....Apr. *36

High Frequency:
Inductive tuning at ultrahigh frequencies .....Apr. *32
Water-cooled resistors for ultrahigh frequencies. Brown & Conklin.. Apr. *24

Institute of Radio Engineers:
Detroit summer convention.....July *21
New York meeting.....Feb. *22
Rochester meeting .....Dec. 31

Intercommunicator with electronic interlocking. H. J. McCreary.....Sept. *30

Loudspeakers:
Hypex horns. Vincent Salmon...July *34
Loudspeaker dividing networks. J. K. Hilliard .....Jan. *26

Manufacturers, directory of.....June 153

Measurements:
Direct reading interpolation oscillator. D. R. Tibbetts.....Oct. *35
Electronic integrator for counting circuit contacts. G. W. Kenrick..Mar. *33
Electronics in auditory research. D. M. Speaker .....Sept. *38
Frequency response curve tracer. Carlisle & Mundel.....Aug. *22
Linear densitometer. J. A. Tiedman .....Mar. 48
Measurements in frequency modulation transmitters. H. P. Thomas, pt. 1, May *23; pt. 2.....July *36
Phase shifting up to 360 degrees. F. A. Everest.....Nov. *46
Power factor meter. A. B. Bereskin Oct. *38
Reference data for measurements.. June 61
Ruler for record patterns. D. R. King (Ref. Sheets).....May 47
Sensitive frequency meter for the 30 to 340 megacycle range. E. L. Hall May *37
Sinewaves in resistance-capacitance oscillators. P. S. Delaup.....Jan. *34
60 cycle square wave generator. K. H. Martin .....July *46
Synchronized voltages for bioelectric research. Harold Goldberg....Aug. *30
Technique for tube data. C. C. Street .....Oct. *50
Tracing tube characteristics on a cathode ray oscilloscope. Millman & Moskowitz .....Mar. *36
Vector computations. Paul Klipsch (Ref. Sheets) .....Dec. 41
Versatile oscilloscope. W. E. Gilson Dec. *22
Water-cooled resistors for ultrahigh frequencies. Brown & Conklin..Apr. *24

Music:
Color organ. R. D. Burchfield..Jan. *44
Solovox. F. D. Merrill, Jr.....Mar. *30

Networks:
Attenuator design. Dawkins Espy (Ref. Sheet) .....Nov. *51
Phase shifting up to 360 degrees. F. A. Everest .....Nov. *46

Priorities:
Assignments of materials.....July 15
Oh, we've got plenty of nothing! Beverly Dudley .....Sept. *24
Priorities—what effect on the radio industry? .....May 21

Radio:
Bandwidth factors for cascade tuned circuits. C. E. Dean (Ref. Sheet) July *41
Frequency modulation noise and interference. Stanford Goldman..Aug. *37
Frequency response of parallel resonant circuit. M. B. Reed (Ref. Sheet) .....Aug. *43

Radio Communications:
Binaural transmission on a single channel. Eastman & Woodward Feb. *34
Emergency radio communication for an electric power system. G. G. Langdon .....Mar. *40
Panoramic radio .....Dec. *36
Radio communication reference data June 34

Receivers:
Impulse noise in frequency modulation reception. V. D. Landon..Feb. *26
Mass production for precision equipment. H. J. Emerson.....Nov. *42

Preselection in inexpensive broadcast receivers. E. B. Passow.....Sept. *50
Receiver interference chart. J. J. Adams (Ref. Sheets).....Feb. 43
Tropic receivers. W. E. Stewart... Mar. 28

Recording:

Research finds that glass is superior material for disc bases. C. J. LeBel .....Oct. *27
Variable equalizer amplifier. Henry Rahmel .....July *26

Rectifiers:

Flexible rectifiers unit for college laboratories. F. V. Schultz.....Aug. *56
Graphical solution of rectifier circuits. Panofsky & Robinson...Apr. *42
Selenium rectifiers for closely regulated voltages. J. E. Yarmack.. Sept. *46
Voltage multiplier circuits. D. L. Waidelich .....May *28

Reference Sheets:

Attenuator design. Dawkins Espy.. Nov. *51
Bandwidth factors for cascade tuned circuits. C. E. Dean.....July *41
Design chart for r-f heat treatment generators. **Eugene Mittelmann...** Sept. *51
Facsimile design chart. R. R. Haugh Apr. 45
Frequency deviation measurement of frequency modulation transmitters. Holland & Giacoletto.....Oct. *51
Frequency response of parallel resonant circuit. M. B. Reed.....Aug. *43
Insertion loss in filters. Kritz & Gruenberg .....Mar. *45
Radio frequency matching sections. C. A. Omberg.....Jan. *43
Receiver interference chart. J. J. Adams .....Feb. 43
Reference and Directory issue....June
Ruler for record patterns. D. R. King .....May 46
Vector computations. Paul Klipsch Dec. 41

Relays:

Applying magnetic relays for sensitive control. A. H. Lamb.....Feb. *31
Cooling control of ore in kiln by photoelectric relay. Philip Ewald..Nov. *55

Sound Pictures:

Sound in motion pictures. Nathan Levinson, pt. 1, Jan. *16; pt. 2..Feb. *37
Stereophonic reproduction of sound in "Fantasia" .....Mar. *18

Television:

Audio and video on a single carrier. H. E. Kallmann.....May *39
F.C.C. hearing on commercial television .....Apr. 18
National Television System Committee proposes television standards.. Feb. *16
Photographic analysis of television images. D. G. Fink.....Aug. *24
Simple television preamplifier. Muniz & Tait .....Apr. *39
Storage in television reception. A. H. Rosenthal .....Oct. *46
Television reference data.....June 49

Transmitters:

Low power transmitter for demonstrating frequency modulation receivers. Marvin Hobbs.....Jan. *20
Power amplifier plate tank circuits. Nov. *32

X-rays:

Ionization of air by means of x-rays. Woods & Kenna.....Apr. *29
New million volt industrial x-ray unit Nov. *36

AUTHORS INDEX

ACEVES, J. G. Antennas for f-m reception .....Sept. *42
Adams, J. J. Receiver interference chart Feb. 43

BAHLS, W. ENDRES & C. H. THOMAS. New, sensitive, and inexpensive gas control tubes.....Sept. *33
Barber, Alfred W., C. J. Franks & A. G. Richardson. Signal generator for frequency modulation .....Apr. *36
Bereskin, Alexander B. Power factor meter .....Oct. *38
Brown, G. H. & J. W. Conklin. Watercooled resistors for ultrahigh frequencies .....Apr. *24
Burchfield, Robert D. Color organ...Jan. *44

CARLISLE, S. F., Jr. & A. B. MUNDEL. Frequency response curve tracer .....Aug. *22
Casselman, E. J. Automatic voltage regulator .....Oct. *54
Chamberlain, A. B. CBS goes to Latin America .....July *30
Conklin, J. W. & G. H. Brown. Watercooled resistors for ultrahigh frequencies .....Apr. *24
Cook, E. G. & A. H. Petersen. Equipment failure alarm for communication networks .....Oct. *44
Cornock, E. F. Electronics applied to packaging machinery .....Mar. *24

DALZIEL, CHARLES F. & J. B. LAGEN. Muscular paralysis caused by electric currents.....Mar. *22
Dean, C. E. Bandwidth factors for cascade tuned circuits.....July *41
Dean, W. W. H. & J. E. M. Lagasse. Receiver tube operation in aircraft Nov. *56
Delaup, Paul S. Sinewaves in resistance-capacitance oscillators .....Jan. *34
Dudley, Beverly. Oh, we've got plenty of nothing! .....Sept. *24

EASTMAN, AUSTIN V. & J. R. WOODWARD. Binaural transmission on a single channel.....Feb. *34
Ebel, A. James. Integrated remote amplifier system .....Aug. *46
Eisenberg, Ernest O. Defense contracts for small plants.....Oct. *31
Emerson, Howard J. Mass production for precision equipment .....Nov. *42
Espy, Dawkins. Attenuator design...Nov. *51
Everest, F. Alton. Phase shifting up to 350 degrees .....Nov. *46
Ewald, Philip. Photoelectric cooling control .....Nov. *55

FINK, DONALD G. Photographic analysis of television images.....Aug. *24
Franks, C. J., A. W. Barber & A. G. Richardson. Signal generator for frequency modulation .....Apr. *36
French, B. V. K. Inductive tuning at ultrahigh frequencies .....Apr. *32

GEOHEGAN, WILLIAM A. Sweep circuit and deflection amplifier.....Dec. *38
Giacoletto, L. J. & L. N. Holland. Frequency deviation measurement of frequency modulation transmitters.Oct. *51
Gilson, W. E. Versatile oscilloscope..Dec. *22
Goldberg, Harold. Synchronized voltages for bioelectric research.Aug. *30
Goldman, Stanford. F-M noise and interference .....Aug. *37
Goldstein, Maxwell K. Experimental duopentode .....May *34
Grant, Harry. Fire protection in broadcasting .....Jan. *38
Gruenberg, E. L. & J. Kritz. Insertion loss in filters.....Mar. *45

HALL, E. L. Sensitive frequency meter for the 30 to 340 megacycle range May *37
Hanson, V. F. Phototube absorption analyser .....Jan. *40
Haugh, Raymond R. Facsimile design chart .....Apr. 45
Hilliard, John K. Loudspeaker dividing networks .....Jan. *26
Hobbs, Marvin. Low-power transmitter for demonstrating frequency modulation receivers .....Jan. *20
Holland, L. N. & L. J. Giacoletto. Frequency deviation measurement of frequency modulation transmitters .....Oct. *51

JUPE, JOHN H. Radio equipment of German air raiders.....Apr. *50

KALLMANN, H. E. Audio and video on a single carrier.....May *39
Kenna, L. Pierce & R. C. Woods. A new use for x-rays in industry...Apr. *29
Kenrick, G. W. An electronic integrator for counting circuit contacts.. Mar. *33
